Registration 12:30 pm
Session: 1 pm – 4 pm

COST

\$50 /attendee/workshop

Certificates issued after completion of training

Course Description

The **Tractor Train-The-Trainer (TTT)** workshops are for **Owners, Foremen, Managers, Supervisors, Safety Personnel** and those **who are responsible for training** on agricultural equipment.

Each participant will be provided with the information needed for understanding the rules, regulations and conducting effective training. Sessions will cover Cal/OSHA regulations, safety aspects and proper operation and maintenance.

This class does not "certify" or authorize the participants to operate equipment. Official training must be provided by the employer on their specific equipment and documented as such. The workshop provided is to educate participants on what needs to be covered in their training programs, and how to effectively train their own employees on these same issues.
